

I find Sinclair  
Broadcasting's  
proposal to preempt  
regular programming  
in favor of a  
flagrantly one-sided  
party political,  
character  
assassination piece  
to be totally  
unacceptable. To me  
it represents an  
outright abuse of  
their license to use  
our, ie. the  
public's, airwaves.  
One-sided  
political propaganda  
by vested ownership  
interests is not an  
acceptable use of  
the public radio  
spectrum.

I find this far more  
offensive than the  
baring of Janet  
Jackson's breast  
could ever be. I  
also find it  
dangerous to the  
future of this  
democracy. Without  
exaggeration, I  
consider this abuse  
far more dangerous  
to the health of the  
Republic than any  
atrocious Al Qaeda  
could come up with.

I ask the FCC to  
prevent this abuse  
from taking place,  
if at all possible.  
If not and it goes  
ahead, I request the  
FCC respond by  
taking concrete  
measures to prevent  
any future  
occurrences. Get  
serious FCC - it is  
the wanton abuse of  
our airwaves for  
propaganda purposes  
that is a threat to  
this society, and  
not the trifling  
matters of taste  
such as partial  
nudity or profanity.
